Dear Friend,

Greetings in the Name that is above every name. I am writing this letter on behalf of Brother Sal Garcia. I have known Brother Sal since 1980 and was his pastor for fifteen years. He and his wife, Pat, have proven themselves to be faithful, hard working soul winners, who are solid Independent Baptist disciplers and church planters. They are leaders and teachers who have given themselves sacrificially to the work of planting churches for Hispanic Americans for almost thirty years. They are two of the hardest working people I know.

Brother Sal is a uniquely gifted preacher in two languages as well as a teacher and leader of others. He has built solid works that are ongoing at this time. I have personally preached in three of the five churches that he has started as a missionary to Hispanic America during those years. All of them are indigenous churches that not only support themselves but are supporters of missions also. The fruits that remain in all of them are a testimony to the vision and labor of this man. In addition, he has been used in two local church Bible Institutes as a Bible teacher to instruct young Hispanic men in the ministry; this is one of the greatest needs in America today.

This missionary has always been under-supported because of his burden for souls and the work which God has called him to. He has never really done deputation for his support but has jumped into the work first. He has worked secular jobs in order to do the work. He now has a vision for the San Luis Valley of Colorado, a place that is bankrupt spiritually, almost completely Hispanic and blinded by false religions. It is a poor agricultural area that needs a fundamental soul-winning church desperately.

I hear much about the needs for Hispanic churches in America. Here is a man with the gifts, the talents, the burden and the experience to plant one in a very needy area. He is willing to uproot his family, leave his security, step by faith and trust the Lord to build that church. All that is lacking is the financial supporters who will share in the fruits of his labors. I urge you to seriously consider and pray about getting behind this proven missionary with your prayers and financial support.

The field is "white already unto harvest". Hispanics are the largest minority group in America today and the number is growing every day. Fundamental Baptist preachers are a rare commodity in the Hispanic world. The cults are merchandizing this field while we speak. Remember—"Night Cometh".

Yours for Hispanic Souls,

Evangelist Wayne Hudson, Th.D.
